IEG PI NOTICE

No. 34-74

TITLE/SIGNIFICANCE:

The R-300 Radio - Relay System

COMMENT: This system consists of two tower-mounted, clipped rectangular reflector plates and two vertical facing platform or ground-mounted ten foot antenna dishes with environmental covers. This R-300 is one of four variants of the R-300 series microwave system purchased from the Hungarians. This system may replace the aging R-60/120 microwave system. These antennas have been observed on the Moscow-Yuryevets-Murom radio-relay line.
